Emcis (EMC1) WHITEPAPER

Introduction

EMC1 is the native token of EMCIS network on binance smart Chain(Bep20) standard . It will be used as a key element in utilities such as Emcis Wallet, Emcis Stakes, Emcis Super decentralized tools. The key idea is to recreate financial services in a decentralized way without a Third party, such as a bank,intervening. Instead, trust is placed in written code (Smart Contract) that is deployed on a blockchain network and allows interest to be earned, loans To be obtained or (synthetic) assets to be traded, and more, without relying on a third party. EMC provides Wallet,Staking,Swap with some super sets of Decentralized tools

Security

Emcis Wallet provides a powerful, in-demand service that allows users to reduce efforts spent on managing crypto assets and renders it transparent and trustless. To make our platform even more convenient and beneficial for users, the Emcis Wallet team utilizes best UI security practices thus facilitating use of our platform's functionality to the full range.

Community

Emcis token is one of the fastest-growing and most beloved communities in cryptocurrency. We believe that community is essential, and Emcis token tries to involve people from all around the world. We have specialized telegram channels for our foreign community.

Longevity

Emcis token is here to stay. The decentralized community encourages and embraces long term ecosystem and foundation development to generate genuine use cases and hire benefits than any ephemeral fad.

EMC1

Emcis Wallet will issue own token, called the EMC1 (Emcis WalletToken). A strict limit of 600M. EMC1 will be created, never to be increased. EMC1 will run natively on the Binance Smart Blockchain with BEP20.

Type: BEP20 Token   **Ticker:**EMC1

Full **name**: Emcis Token

Total supply : 600M EMC1

Decimal : 6

Open Contract Source Code

Token economy and premises to following price growth is described in a special charter.

Subscription platform

We are developing a content subscription platform to create utility for Emcis token where $EMC1 can be used for purchasing content, tipping & messaging content creators on our content platform.

EMC Staking
